Humly Workplace Solutions

Less friction, more focus

Free your mind at work.

Book, manage and optimize your workplaces with less friction and more focus.

What is Humly?

Humly is a Workplace Experience Platform combining award-winning hardware with intelligent software to streamline recurring workflows. From managing rooms, desks, and parking spaces to visitor management and indoor navigation, Humly optimizes resource utilization while enhancing experiences for employees and visitors alike.

Your Workplace Experience on a Single Platform

Humly streamlines everyday workplace journeys with seamless integration into Microsoft 365, Google Workspace and other calendar platforms. Its modular system, managed via the intuitive Humly Control Panel, offers tailored solutions on a scalable, secure platform.

Tech should be helpful, never intrusive

In a world of distractions, our product suite helps you navigate easily, keeping your mind clear. Embrace the Humly philosophy: timeless visuals and intuitive functions for a focused work life. Less friction and more focus equal greater success.

Enterprise class security

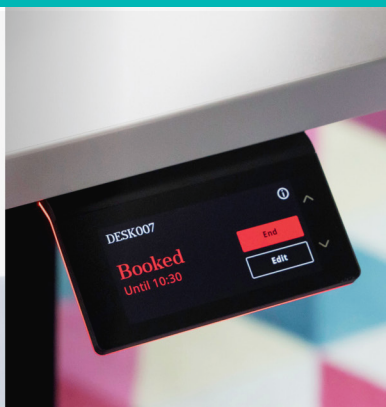

Humly ensures enterprise-level protection and data privacy. Hardware options that disable WiFi, Bluetooth, and USB connectors for ultimate security. Following ENISA and CIS best practices, Humly employs a proactive development process with thorough hardware and software control, complemented by regular external penetration testing to minimize risks and maintain robust security.

ISO-Certified for Trust and Excellence

Humly is proudly ISO 27001, 9001, and 14001 certified, ensuring the highest standards in information security, quality, and environmental responsibility. These certifications reflect our commitment to protecting your data, delivering reliable solutions, and promoting sustainability in every product we create.

Humly Booking Device

Book anything, anywhere. For a more flexible office.

Adaptable, Flexible, and Built for the Hybrid Workplace

Slim, compact, and infinitely versatile, the Humly Booking Device transforms any workspace into a seamlessly bookable resource. It combines elegant, award-winning design with cutting-edge functionality, making it the ideal solution for the modern workplace.

Mount It Anywhere

The Humly Booking Device is designed to book:

- Desks
 - Meeting rooms
 - Focus rooms
 - Phone booths
 - Co-working and social spaces
 - Cars and parking spaces
 - ...and anything else you need!
-

Core Features

Find, Book, and Manage Resources Effortlessly

- Locate your booked resource or find an available one instantly.
- See who has booked it and for how long at a glance.
- Tap to book.

Streamlined User Experience

- Reduce frustration with clean, intuitive technology designed for focus.

Touchless Check-In

- Use **RFID** or **NFC** for quick and easy check-ins.

Smart Occupancy Tracking

- Built-in desk sensors ensure accurate usage monitoring and check-in.
- Configurable to act on usage information to optimize resource efficiency.

Phone Booth Mode

- Sensor integration to show when a phone booth or a room is occupied.

- Our signature green and red halo light indicate if someone is current inside.

Infinitely Flexible

- Flexible mounting options for every scenario.
- Configurable to perfectly suit various requirements.

Remote Management & Monitoring

- Manage devices across multiple locations.
- Real-time connection for instant updates and communication.
- Access comprehensive usage statistics and monitoring tools.

Seamless Integration with Leading Platforms

- Microsoft 365
 - Microsoft Exchange 2016/2019
 - Google Workspace
 - Appspace
 - Nexodus
 - TOPDesk
 - Humly Reservations
 - Open API for third-party integration
-

Why Choose Humly Booking Device?

Elegant, Timeless Design

- Award-winning design has set a new standard for hybrid workplace solutions.
- Designed to minimize workplace friction and blend seamlessly into any office aesthetic.
- Intuitive and accessible user interface.
- Designed for flexibility with versatile mounting options.

User-Friendly Experience

- Easy-to-use touch screen for ad-hoc and scheduled bookings.
- LED indicators clearly display occupancy status immediately.

Cost-Effective Solution

- Offers advanced features at a fraction of the cost of a traditional Room Panel.
- Durable, with a +5-year lifespan.

Global User Accessibility

- Multilingual support for global teams.

Supported Accessories

- Top-of-desk and wall mount (included)
- Under-desk mount
- Glass wall adhesive
- USB-C power cable
- Power adapter
- Extension box with support for Ethernet/PoE and controller for adjustable desks.
- Cables for adjustable desks

Simplify Workspaces. Maximize Efficiency.

With Humly Booking Device, you can streamline bookings, optimize workplace resources, and create a smarter, more adaptable hybrid office environment.

Humly Reservations

Streamline bookings – anytime, anywhere

Let anyone book what they need, when they need it

Effortlessly manage rooms, desks, and parking spaces with Humly Reservations, a system built for efficiency and collaboration. Fully integrated with your existing calendar system or as a standalone system, it ensures seamless bookings for users and guests. Accessible via phone, browser, or Microsoft Teams.

Core Features

Comprehensive Management

- Check availability, view room amenities and capacity, and book or adjust reservations with ease. Add parking spaces as resources for complete workplace management.
- Integrates with Active Directory.

Guest User Access

- Enable guest users to book resources.

Find Colleagues and Resources

- Locate colleagues in the office and book spaces near them. Search for desks, rooms, and parking availability for streamlined planning.

Dynamic Parking Management

- Book parking spaces dynamically, saving time and reducing hassle.

Standalone Mode

- If you want, you can add bookable resources independently from platforms like Google Workspace or Microsoft 365. Book directly via Humly Reservations or Room Display, with all data securely stored in the Humly Control Panel.

Microsoft Teams Integration

- You can access Humly Reservations within Microsoft Teams, leveraging one of the most widely used workplace apps for convenience and efficiency.

Why Choose Humly Reservations?

User-Centric Design

- Focused on reducing friction and enhancing productivity.

Flexibility

- Supports booking across domains and customizable parking and workspace solutions.

Full Integration

- Works seamlessly with existing calendar systems, enabling users to access reservations through a familiar interface.

Scalable and Secure

- Designed for enterprises, with robust security and scalability for growing organizations.

Effortless Management

- Monitor and control bookings across multiple resources via the intuitive Humly Control Panel.

Humly Reservations is the smarter, simpler way to manage your workplace—bringing efficiency, collaboration, and focus to every workday.

Less friction, more focus

No more integration chaos

Humly partners with both Microsoft and Google to provide native integrations for our software and hardware. We continuously add market-leading smart office and collaboration integrations, and thanks to our open API we offer flexibility for seamless custom integration. We provide premium customer support at [*support.humly.com](mailto:support@humly.com).

Flexible and Scalable Workplace Management

Our solutions are scalable and flexible for enterprise customers. Centrally manage all devices remotely via the Humly Cloud or deploy On-premises with full flexibility. Humly Solutions will scale from a single office location to global roll-out with hundreds or thousands of locations.

Sustainable and Built to Last

At Humly, sustainability is at the core of our design. We use environmentally friendly and recycled materials wherever possible, creating products that are durable and reliable. Each component is carefully selected to ensure our devices operate seamlessly every day for up to a decade, and a matching timeless design. Scan the QR code to explore our full sustainability report.

Humly Floor Plan

Space availability – at a glance

3D Office Overview Made Simple

Get an instant 3D overview of the office. What spaces are occupied? What's free? Who sits where? Check a whole floor or specific rooms, desks, and parking and book them. Just like that.

Core Features

Instant 3D Visualization

- Get a real-time bird's-eye view of your office, including floors, rooms, desks, and parking spaces. Green means available, red means occupied—it's that simple.

Interactive Booking

- Check availability and book directly through the 3D floor plan from Humly Reservations. Use passive mode for at-a-glance occupancy or interactive mode to manage bookings in real time.

Find a Colleague

- Locate a colleague and book a nearby desk or room. Plan collaboration by viewing where colleagues are working on a specific day.

Manage Parking Spaces

- Easily check and book parking with a single click. Red and green shading on the 3D map shows what's available, saving time and frustration.

Mobile and Remote Access

- Book rooms, desks, or parking spaces via Humly Floor Plan on your phone or through Microsoft Teams with single sign-on, even when you're outside the office.

Facility Manager Insights

- Monitor real-time resource usage with synced 3D maps, for a comprehensive overview of occupancy.

Customization Options

- Add your logo and display custom messages to align with your brand.

Why Choose Humly Floor Plan?

Time-Saving Efficiency

- Eliminate the guesswork of finding available spaces, saving time for employees and guests.

Seamless Integration

- Combine with Humly Reservations or Wayfinding for a complete workplace solution.

Flexible Booking

- Configure any bookable resource, from desks to parking spaces, for a tailored experience.

Intuitive Design

- Easy-to-use visual interface requires no training.

Enhanced Collaboration

- Locate colleagues and resources effortlessly, fostering better teamwork..

With Humly Floor Plan, your office is always at your fingertips—simplifying workplace navigation, bookings, and resource management.

Humly Wayfinding

Find your way at a glance

Simplify Navigation, Save Time

70% of office workers spend more than 15 minutes each day looking for meeting rooms. 24% spend more than 30 minutes trying to coordinate and book collaboration spaces. Let's give some of that wasted time back to your employees.

Core Features

Intuitive and Efficient

- Inspired by airport boards, Humly Wayfinding offers clear, chronological meeting information at a glance. No maps, no confusion—just fast, effortless directions.

Customizable Displays

- Show meeting subjects, organizers, room details, buildings, available desks, and even QR codes. Add your company logo and custom messages for a personalized touch.

Seamless Integration

- Run Humly Wayfinding alongside other booking systems effortlessly. Display on any screen with a web browser for ultimate flexibility.

Easy Setup

- Quickly configure via the Humly Control Panel, on a Humly Cloud Server or locally installed server.
-

Why Choose Humly Wayfinding?

Save Time

- Eliminate wasted minutes spent searching for meeting rooms.

User-Friendly

- Designed for simplicity and efficiency, inspired by airport navigation systems.

Highly Configurable

- Tailor displays to match your office's unique needs and branding.

Seamless Integration

- Combine with Humly Reservations or Floor Plan for a complete workplace solution. Guiding people from point A to B in an intuitive way.

Flexible Compatibility

- Works seamlessly with almost all booking systems.
-

Humly Wayfinding reduces friction and frustration, giving employees more time to focus on what truly matters.

Humly Visitor

Welcome your visitors with ease

Streamline Your Guest Experience

Are my guests here? Has everyone left the building? Keep track of who enters and leaves the office and give your visitors a friendly welcome.

Core Features

Effortless Check-In and Check-Out

- Visitors can check in and approve terms on any device with a web browser. The system logs visitor details, triggers badge printing (via Humly Print Service), and makes check-out seamless for everyone.

Pre-Registration for Efficiency

- Save time with pre-registration. Visitors can check themselves in and out without re-entering details, streamlining daily operations for office staff and guests.

Real-Time Host Alerts

- Notify hosts instantly via email or SMS when a visitor arrives, ensuring timely and efficient meetings.

Visitor Tracking and Insights

- Track visitor flows in a detailed log, including contact information, visit times, and host details. Use this data to enhance workplace safety, optimize resources, and manage emergencies effectively.

Parking Convenience

- Register visitor parking spaces during check-in for a smoother arrival experience.

Multilingual Support

- Offer check-in in 29 languages, with notifications to hosts in their preferred language.

Why Choose Humly Visitor?

Effortless Check-In and Check-Out

- Free up front-office staff to focus on human interaction, the cornerstone of great service.

Enhanced Security

- Keep a detailed visitor log for safety and emergency planning.

Customizable and Flexible

- Adapt check-in fields, terms, and badge printing to suit your office needs.

Enhanced Security

- Keep a detailed visitor log for safety and emergency planning.

Humly Visitor reduces distractions and admin, offering a warm, efficient welcome that leaves a lasting impression on your guests.
